Background and Methodology
Background and Methodology

Background

The Louisville Bar Association (LBA) contracted the services of Thoroughbred Research Group to assist in its annual review of the performance of sitting judges. The LBA sent evaluations to all Kentucky Bar Association members with contact addresses in Jefferson County to rate the performance of various judges with whom they have had experience over the past two years. Judges included in the 2009 evaluation were those serving on United States District Court for the Western District of Kentucky, United States Bankruptcy Court for the Western District of Kentucky, and Jefferson District Court. Also included in the 2009 evaluation were Magistrates for the Western District of Kentucky and Senior Status judges serving Jefferson District Court.

Methodology

In October 2009, letters and postcards were sent to 4,082 LBA members informing them of the annual Judicial Evaluation. Members who were qualified to participate in the review were asked to fill out the postcard request and return it to Thoroughbred Research Group no later than October 16. A total of 581 postcard requests were received by the postmark date. Survey packets and return envelopes were mailed to the 581 members in mid-November. A reminder was posted on the LBA website approximately two weeks later. Respondents were asked to return the completed evaluation forms to Thoroughbred Research Group postmarked no later than December 11, 2009. A total of 329 completed survey forms were returned by the postmark date.

Response Rate

Because of the size of the litigation bar and the nature of such practice, only a limited number of attorneys have had significant experience with a particular judge in a specific court. Consequently, from the original 4,082 attorneys who received notice of the evaluation, just a fraction could reasonably be expected to respond to the survey questions. Of those attorneys who were qualified and agreed to respond to the evaluation, many may have significant experience in only one of the courts evaluated or with a limited number of the judges listed. Still, the number of lawyers responding is more than adequate to result in a statistically valid evaluation of the judiciary.
The judges rated during the 2009 evaluation and the total number of respondents rating each judge are shown below:

**Questionnaire**

The survey instrument included a series of 19 attributes (17 attributes for United States Bankruptcy Court judges and Magistrates). Respondents were asked to indicate the extent to which they agreed or disagreed with each statement used to describe a particular judge using a four-point rating scale of strongly disagree, disagree, agree, and strongly agree. Respondents were also given an option to write in any advice they would give to a particular judge to improve his/her performance. These comments were provided only to the applicable judge under separate cover as confidential feedback for his or her personal review. General comments on how to improve the evaluation process or the court system were submitted to the LBA under separate cover.

Respondents were instructed to rate only those judges with whom they have had substantial professional contact within the past two years.

Where applicable, comparative ratings are shown from the most recent prior Judicial Evaluation in 2007.
The rating for this category is based on the level of agreement with the following statement for each judge:

- Does a good job overall.

This is an independent rating of the above attribute. It is not a mathematical average of all other ratings.
