

Built for law firms and legal organizations that do more with less

Louisville Bar Association member firms juggle trust accounts, vendor invoices, event expenses, and dues—often with lean teams and high expectations for accuracy and compliance. BILL replaces spreadsheets and paper-based processes with one automated platform for accounts payable, accounts receivable, and spend and expense.

Now your staff can spend less time on manual admin and more time serving clients and members—complete with visibility, control, and audit-ready documentation.

Why law firms choose BILL

Save time

Replace manual data entry, check runs, and email approvals with automated workflows and electronic payments.

Improve accuracy

Gain a clear view of cash flow, approvals, and documentation. No more digging for answers.

Support distributed teams

Review and approve bills and expenses from anywhere, on any device—whether you're in the office or in court.

What you can do with BILL

BILL Accounts Payable

- Capture and code invoices with AI. No manual data entry.
- Route bills digitally with clear separation of duties.
- Pay vendors via ACH, virtual card, international wire, or check—in one place.
- Reduce errors and fraud risk with role-based permissions, approval policies, and timestamped audit trails.

BILL Accounts Receivable

- Send professional invoices and track payment status in real time.
- Accept electronic payments—spend less time chasing checks.
- Sync to your accounting system for accurate, up-to-date books.
- Store invoices and payment records securely in the cloud for easy retrieval and documentation.

BILL Spend & Expense

- Issue physical and virtual cards with built-in spending controls.*
- Track expenses by matter, department, event, or budget in real time.
- Automate expense reports and categorizations to speed up month-end close and simplify reconciliation.
- Submit receipts and expenses from any device.

Works with the tools you already use

BILL integrates with leading accounting systems and supports file-based imports and exports, helping you keep your general ledger and financial records in sync—without duplicate data entry.
